**ARRIVAL AT DEALERSHIP**

Dear Dealer: Heartland RV thanks you for your business. Please check the unit for damage and verify that all invoiced items are present on the unit. Any discrepancies must be listed and verified by the driver, as the driver is responsible for any damage incurred, and for items that are on the unit when the driver accepted it from the plant, but are not present upon delivery.

- Blue Bag, Warranty papers, and remotes are in unit
- All keys are inside packet
- Owner's Manual
- Operating Manuals and related warranties
- Verify options in unit to invoice

Shortages:

---

Note: Inspection must be completed immediately. Heartland RV will not cover damages or shortages disclosed at a later date. Any shortages or damages NOT NOTED on this sheet or attached sheets (if necessary) will be the responsibility of the dealership.

In accepting the unit I understand that none of the appliances are considered safe for use prior to specific safety and operation tests by a qualified technician. The LP Gas system was checked prior to leaving the factory, however, the LP Gas system must be inspected by a competent LP Gas service technician to assure there are no leaks and the system is satisfactorily functioning prior to delivery to the retail customer.
